

Member Spotlight – Fernando Cuglievan

Fernando was born In Peru South America. Fernando was introduced to airplanes early in his life as his dad was a farmer and owned two Cessna Airplanes.

He travelled to USA and went on to high school in Apple Valley, CA,. He then received his Mechanical Engineering degree in Flagstaff, AZ and an MBA in business in Phoenix, AZ.

In 1990 Fernando moved to the Northwest, married and had four kids, currently with two in college and two at home.

Fernando has been working for JH Kelly for 22 years as a Project Manager in Industrial construction. He likes to spend time with the family camping, water and snow skiing. In his spare time he likes to work on house and airplanes projects.

He officially soloed with Ann at Kelso Aviation in 2007. He has built two RV's and is currently re-building a Mustang 2. In his spare time he's building a house at Lake Mayfield. Fernando recommends to set a time every day when you can work on your project. Usually he starts working on his projects as early as 4 am.

We're looking forward to see the Mustang 2 flying soon.

Fernando official Solo in 2007

Fernando's current project – Mustang 2

One of the nicest RV-9A's you'll ever see was built by Fernando!
